

VEDANTA LIMITED, JHARSUGUDA  
THERMAL POWER PLANT (2400 MW)

Compliance Status on

Stipulation of Additional Conditions in respect of Mega Projects already granted Environmental Clearance – regarding.

<b>Sl. No.</b>	<b>CONDITIONS</b>	<b>COMPLIANCE STATUS</b>
(i)	Continuous monitoring of stack emissions as well as ambient air quality (as per notified standards) shall be carried out and continuous records maintained. Based on the monitored data, necessary corrective measures as may be required from time to time shall be taken to ensure that the levels are within permissible limits. The results of monitoring shall also be put on the website of the company in the public domain.	We have installed continuous stack monitoring equipment in all our operating plants. We have installed 8 no. of continuous ambient air quality monitoring equipment at Jharsuguda location. We are taking necessary measures to ensure the emission levels are well within the permissible limit. The monitoring results have been put in the web site of the company.
(ii)	The six monthly monitoring report as well as the monitored data on the various parameters as stipulated in the environment clearance conditions shall be put on the website of the company and also regularly updated. The monitored data shall also be submitted to respective State pollution Control Board / UTPCCs and the Regional Office of MoEF.	We have already web hosted the monitoring report and monitoring data as stipulated in environment clearance conditions in company's website. The monitored data is being submitted to State Pollution Control Board and regional Office of MoEF.
(iii)	The ambient air quality data as well as the stack emission data will also be displayed in public domain at some prominent place near the main gate of the company and updated in real time.	The ambient air quality data and the stack emission data are being displayed in public domain at our main gate.
